

Attention Marina/Boating Members;

As we continue to monitor reports of the impact of the Coronavirus (COVID-19), we want to assure you that the marina remains committed to delivering outstanding service.

During this evolving health situation, the safety and well-being of our boating members, visitors, and staff is our main priority. We greatly care about our community and want to do our part to keep everyone healthy and help minimize the spread of the virus.

In that spirit, we are implementing a Plan of Action at the marina to assist in the containment of the coronavirus, and to help protect us all.

Effective immediately, the marina office will be closed to all marina /boating members and visitors through April 6th, at which time we will re-evaluate to determine if the closure of the marina office needs to be extended.

During this closure period, we encourage our marina/boating members to email us direct at; Whiskeyislandmarina.office@gmail.com. If emailing us is not an option, you can call the marina office and leave us a voice message. However, with the marina office temporarily closed, returning ones call will take longer than normal. While we are currently allowing our marina/boating members access to work on their boats stored outside, we ask that you follow CDC guidelines on social distancing. Should it be determined that social distancing cannot be maintained, we will then close all access to the marina.

Other steps we are taking to help prevent the spread of the virus includes minimizing the number of staff members working. Office staff will primarily work remotely from home during this time, while other key staff members are working alternate hours, creating social distancing for those required to be on location at the marina.

While we have instructed staff members working at the marina during this period to stay home if they or a family member are sick, we ask that our boating members do the same.

These steps are necessary to preserve the health of our staff and help curtail the spread of the virus. As we continue to monitor the impact of the coronavirus, we will keep you informed of further changes, including that of any date changes of the above measures.

On behalf of all of us at the Whiskey Island Marina, thank you for your understanding and support during this most challenging time. Remember, we are all in this public health situation together, and wish you and your families much good health.
